

TfT 101 Onboarding Working Group 2024/2025

This working group is specifically designed for current TfT schools that have hired new staff. The TfT 101 Onboarding Working Group will create a space where recently hired teachers can be fully onboarded and equipped for successful implementation of TfT so that they can join your school's TfT journey.

As a year-long cohort, this working group will develop a thorough understanding of the TfT framework, learn and begin to use the core practices of TfT, develop and deepen their FLEx understanding and design, and receive some focused coaching and support as they begin their journey toward implementing TfT alongside with the rest of your team.

: \$500/participant
